

Your Complete Comfort and Energy Efficiency Experts

COVID-19 Statement

WE ARE OPEN

Home Construction is deemed essential under the "Stay at Home" order. We are open for business and ready to assist you.

First, we hope you and you and your family are safe and healthy during these challenging times.

IES is taking the current situation with COVID-19 Seriously and wanted to share the specific actions that we are taking.

Although most of our work takes place outside the homes living environment, we have implemented safety protocols for all or our employees which include;

- ✓ The strict use of personal protective equipment i.e. masks and gloves.
- ✓ Respecting the client's home as a sanctuary and choosing to use bathroom facilities elsewhere.
- ✓ Social distancing, hand sanitizer on all trucks and job sites.
- ✓ One-time use flooring and dust protection, no tarps being reused from project to project.
- ✓ Job site clean-up and sanitation measures.

As you and your family may now be spending considerably more time indoors, we want to ensure that your home remains a safe, healthy and comfortable environment. Here are a few recommendations;

- Open doors and windows on warm days.
- Run bath fans for at least 20 minutes after showering.
- Change the furnace filter when needed.
- Ventilate the area if using strong cleaners.

Please feel free to contact our office with any questions, troubleshooting issues or projects. We will be happy to discuss them over the phone or via digital communications. We are also offering limited site visits.

Stay Safe and Healthy,
Tony Botkin
